Drip Drop Curriculum

Through hands-on activities, students will review the water cycle and learn about aquifers, watersheds, and the impact humans have on our local waterways. Students will pledge to conserve water in their neighborhoods.

This program supports NGSS 5th Grade Earth Science (5-ESS2-1 and 5-ESS2-2).

Considerations:

- Refer to the district/school master calendar to avoid scheduling conflicts with year-round cycles, district-wide testing, Open House, conferences, winter/spring break, school holidays, inservices, or special events.
- Schools are scheduled on a first come, first serve basis.
- Estimate the number of students, this number will be used on your contract initiated with your school/district. Remember to include Special Education students.
- Cancellations and adjusted enrollment numbers require written notice of at least **20 business days** prior to participation. If another school cannot be found for the open date, your school will be billed for 90% of your contracted enrollment.
